EDUCATION

- **Vellore Institute Of Technology, Bhopal** Madhya Pradesh, India
B.Tech, Computer Science & Engineering
Cumulative CGPA: 8.9
Oct 2022– Oct 2026
- **Doon International School, Dehradun** Dehradun, India
Class XII – CBSE
Percentage: 90.8%
Apr 2020– Apr 2021
- **Doon International School, Dehradun** Dehradun, India
Class X – CBSE
Percentage: 96.8%
Apr 2018– Apr 2019

SKILLS

- **Programming Languages:** C++, Python, JavaScript, SQL
- **Backend & Libraries:** Node.js, Express.js, REST APIs, Next.js, React, Tailwind CSS
- **Databases & Cloud Platforms:** PostgreSQL, MongoDB, Supabase, AWS, Vercel
- **Developer Tools:** Git, GitHub, Postman, VS Code, Docker, Sentry
- **Core CS:** Object Oriented Programming, DSA, DBMS, Operating Systems, Computer Networks

WORK EXPERIENCE

- FreeLance Web Developer** Dehradun, India
Nov 2025 - Present
- Collaborated with the client in an Agile development process, prioritizing and delivering 10+ user stories per sprint while resolving 15+ critical bugs in checkout and payment workflows
 - Refactored legacy modules into reusable components, improving maintainability and reducing response times during peak usage, used Git and GitHub for version control, feature branching, and change management throughout development
 - Improved code quality through modular architecture, reusable components and consistent documentation, validated REST API endpoints using Postman and performed functional testing before deployment

PROJECTS

- CapstoneDesk — Intelligent Academic Workflow & Group Allocation System** | [LINK](#) Oct 2025 - Present
- Designed and implemented an academic workflow platform tested by the Program Chair and Dean, integrating React, Node.js, Express.js, REST APIs and Supabase to deliver real-time updates with < 150 ms synchronization latency across faculty dashboards
 - Developed an automated plus manual group allocation engine that analyzes student preferences and constraints, reduced allocation time by approximately 40% during internal testing while reducing manual administrative overhead
- Acadence — LMS SaaS Platform** | [LINK](#) Sep 2025 - Nov 2025
- Developed and launched a scalable LMS using Next.js and Supabase, supporting 100+ concurrent users and implemented Stripe subscription management and authentication for scalable user onboarding
 - Engineered and scaled a real-time AI tutoring feature, integrating Vapi AI to achieve < 200ms response latency while utilizing UptimeBot and Sentry to ensure 99% system uptime

- HOTS — Content Recommendation Platform** | [LINK](#) May 2025 - Jul 2025
- Leveraged Firebase Firestore to enable real-time user profile updates and track content interaction, enhancing app responsiveness and fixing four critical bugs reported by beta testers
 - Implemented a recommendation engine combining Content-Based Filtering (Cosine Similarity) and Collaborative Filtering (SVD), improving recommendation accuracy by 20% as measured by NDCG@10

CERTIFICATIONS & ACHIEVEMENTS

- Completed AlgoUniversity Graph Theory Camp and solved 50+ graph-based problems involving DFS, BFS, MST and Shortest Paths
- Advanced to the semi-finals of Hackon 5.0 (sponsored by Amazon) by collaborating with a team to design and implement an innovative solution, demonstrating strong teamwork, and software development skills
- Solved 600+ Data Structures and Algorithms problems on([LeetCode](#)/[Codeforces](#)) covering Graphs, Trees, Dynamic Programming and Greedy Algorithms
- Pitched a novel E-commerce platform to a panel of 7 judges and mentors from venture capital firms at Startup Wreak 2022 held at VIT Bhopal University and secured the first position
